

Saft batteries

Saft is a world leader in the design and manufacture of advanced technology batteries for industrial and defence applications. In fact, Saft pioneered the development and production of both primary lithium cells and lithium-ion technology, and continues today to invest in the development of technologies and solutions that serve the evolving ...

Saft is a global battery company that provides critical safety applications, back-up power and propulsion for various markets. Saft invests in nickel, lithium and solid-state battery technologies for extreme conditions and renewable energy solutions.

Li-SOCb product range High energy, high voltage, long life, wide temperature Lithium-thionyl chloride (Li-SOCh) batteries from Saft o Bobbin or spiral operating voltage: 3.6 V o Lowest self-discharge for extended operating life o Well controlled passivation o LS cells compliant with IEC 60079-11 Part 10.5 Intrinsic Safety for ATEX applications o...
