# Simplisafe outdoor camera with solar panel

I'm having issues with not getting the sun to hit the entire panel because I guess on where I thought was the best option. So the solar panel is not charging my outdoor camera. SimpliSafe doesn't provide much help or instructions for those who have eaves/soffits where the solar panel can stick out far enough to capture the sun on the entire panel.

UYODM Solar Panel powers your SimpliSafe outdoor Camera in a green way. charged with sunlight, consuming zero electricity. Why Choose Our Solar Panel: 1. Power Your SimpliSafe outdoor Camera. 2. Weatherproof and High and low temperature protection design . 3. High Conversion Efficiency Solar . 4. 11.5ft/3.5M flat cable . 5. Adjustable mount

I have two cameras I have a solar panel attached to each. They both get direct sunlight 11-12 hours a day. (I live on top of a mountain) One camera never will charge above 74% the other would go from 70% to Zero within minutes - waiting for replacement camera - it was over night shipment from FedEx on Feb. 9 - guess they have long nights!!

Hello, I recently installed solar panel for our outdoor camera but it doesn't seem to be charging the camera. The battery for the camera was charged to 100% prior to the installation, and the solar panel was installed in a location that gets direct sunlight in the morning.

The SimpliSafe outdoor security camera is the only SimpliSafe accessory (aside from the solar panel) that's meant to be used outdoors. It has a high dust- and water-resistance rating, plus it doesn't melt or freeze under temperatures ranging from -4 degrees Fahrenheit to 122 degrees Fahrenheit.

Which Version of the Solar Panel do I Have? There are two versions of the Solar Panel accessory, both of which are compatible with the Wireless Outdoor Security Camera and the Outdoor Security Camera Series 2. The only difference between the two Solar Panels is the mounting mechanism. Most Solar Panels purchased prior to October 2024 will hav

Thanks to its 13-foot power cable, the Solar Panel doesn't need to be installed in the same place as your camera. Simply run the cable to the Outdoor Camera, and use the included cable management velcro sleeves to neatly tuck unused cable behind the Solar Panel. NOTE: Outdoor Cameras are only compatible with SimpliSafe® Solar Panels, and not ...

With just 3 hours of direct sunlight per day, this Solar Panel keeps your Outdoor Camera charged 24/7. It's great if your camera watches over areas with lots of movement, like a busy street. System ...

I was unable to locate the original comment regarding how to mount the SimpliSafe solar panel on aluminum siding. After spending months researching I think I found a possible solution and wanted to share with others who expressed frustration at not being able to mount the panel.

If it was, I would also charge the camera's battery for at least 5 hours using the charging cable that it came with. The Solar Panel is designed to keep the Outdoor Camera's battery charged, not charge it from 0 to 100, so fully charging the camera's battery before connecting it to the Solar Panel is recommended.
