

Solar broker company

Who are solar brokers?

We're Brokers. Unlike solar manufacturers and installers, we are impartial and offer unbiased services and solutions. This means we will find you the best possible solar design for you and your home that provides the most amount of energy savings through trusted partnerships. Solar energy is abundant and costs less than traditional electricity.

Why should you use a solar broker?

Solar brokerage simplifies the solar panel process by connecting clients with trusted installers, providing expert guidance, and saving clients time and effort. Utilizing a solar broker offers cost savings through available incentives and leasing options while benefiting from their industry expertise and connections.

How does a solar broker work?

The solar brokerage process begins with an initial consultation between the client and the solar broker. During this stage, the solar broker gathers relevant information about the client's energy needs, budget, location, and specific requirements or preferences.

How do solar brokers make money?

Some solar brokers also offer value-added services such as system monitoring, maintenance packages, or extended warranties, contributing to their revenue stream. The specific compensation methods and fee structures vary among solar brokers, and clients need to discuss and clarify these aspects upfront.

Are solar panels a good investment?

Every year, energy costs rise in the US. Lock-in low energy payments now. A recent US energy study proved that homes with solar panels sell 20% faster and for 17% more money. US energy costs will continue to skyrocket...now's the time to go solar!
