Does Austin have solar power installed?

According to a recent report by Environment Texas, Austin has 90-plus watts of installed solar capacity per capita, making it one of the top-ranking states for solar power. The city's solar footprint is growing fast, with more Austin residents turning to renewable energy.

Are solar panels worth it in Austin?

Solar panels were shown to increase the value of a home by an average of 4.1% in a study conducted by real estate listing site Zillow. That means for a median-priced home, adding a solar energy system could increase its value by about \$9,300.

How many solar companies are there in Texas?

There are over 600 solar companies in Texas*, many of which operate in Austin. Six hundred solar companies serve customers in the state.* Here are a few things to consider when narrowing down your list of solar companies:

Why should you buy a solar system in Austin?

Electricity consumption: The average home in Austin uses a lot of energy, and so may see more savings on electricity bills than other places. System size and type: Some models are more expensive than others, so the one you decide on can raise or lower your upfront cost. Plus, the more solar panels you need to get, the more it'll cost.
