With that in mind, here's our ranking of the top five solar companies in Riverside, CA based on ratings, reviews, and more. Since 2008, Solar Optimum continues to be the leader in supplying solar energy systems, back-up battery storage a... Sunergy is the #1 Rated Enphase Platinum Installer in CA.

How much do solar panels cost in Riverside CA?

Based on the latest data from the EnergySage Marketplace, the average Riverside, CA homeowner needs a 9.7 kW solar panel system to cover their electric bills. That'll set you back about \$22,609 before incentives. Need a bigger (or smaller) system to offset your electricity use? The average price per watt of solar power in Riverside, CA is \$2.33/W.

What are people saying about solar installation services in Riverside?

What are people saying about solar installation services in Riverside, CA? "One of the most professional service groups we have ever had on my property. Iris's team came in, took care of installation, clean up, all of our questions. They even took the time to show us some unrealized concerns/things to watch out for in the future.

Should you get a solar loan in Riverside?

Solar loans are popular among homeowners because you don't have to have the money for the installation upfront, but you get better lifetime savings than with a leased system. You also get to directly use the incentives (tax credits, rebates, etc.) available in Riverside, rather than a leasing company retaining them.

Do I need a solar battery in Riverside?

No, you don't need to install a solar battery in Riverside. Solar panels can operate and lower your electricity bill even without a battery. However, a solar battery might be a worthwhile investment in some cases. A battery can provide backup power and priceless peace of mind in places with prolonged grid blackouts or extreme weather events.

How much does a 6 kW solar system cost in Riverside?

A 6 kW solar system will cost about \$16,080 in Riverside before incentives. After the 30% federal solar tax credit, this drops to \$11,256, or about \$1.88 per watt. The total cost of a solar system will vary depending on the company you choose, the size of the system, the equipment installed, and how you finance it.
