Palo Alto Solar provides site evaluations and solar system design services for residences and businesses in California. Its site evaluation services include site latitude, tilt angle and direction of mounting location, roof live load calculations, weather patterns and seasonal shading, and component placement.

Solar panels for home use are a great investment in the Palo Alto area. Palo Alto averages over five hours of sun per day, year-round, so it is one of the best areas in the nation for harvesting solar energy. You can reduce your solar panel cost by taking advantage of the federal investment tax incentive, which allows you to deduct up to 26% of the cost of your solar system.
