The highest-rated local solar company in Shreveport is Solar Alternatives, Inc., with a rating of 3.00 stars. What are some of the main advantages and disadvantages of going solar? A few of the biggest pros are that it lowers your power bills, it's good for the environment, and it can give you a significant return on your investment (ROI).

How do I choose a solar installer in Shreveport?

High-quality solar panel installation in Shreveport, Louisiana requires you to hire a solar installer with proper certification, skills and experience. We've assembled a list of the highest-rated solar companies in Shreveport to help you choose the perfect installer.

Are solar panels a good investment in Shreveport?

You can go with a local Shreveport solar company or use an established national brand. Even though solar panels are a significant upfront investment, you can reduce your energy bills over the long run. The U.S. Energy Information Administration (EIA) shows that moving to solar energy enables Shreveport homeowners to save around \$1,800 per year.

How much does solar cost in Shreveport?

The average price per watt of solar power in Shreveport, LA is \$3.01/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$25,089 for a 11.92 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

Why should you switch to solar power in Shreveport?

Shreveport and the surrounding area receive plenty of sunlight, which enables homeowners to benefit from solar energy. Here are the biggest reasons for switching to solar power: Reduce environmental impact: Adopting solar reduces your carbon footprint by saving fossil fuels otherwise used to power your home.

How do solar incentives work in Shreveport?

Solar incentives and rebates can cut the cost of installing solar in Shreveport by thousands of dollars. The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage.
