From solar-powering indigent disconnected communities with our homegrown remotely managed Smart Grid Technology, to providing turnkey renewable energy solutions for the agricultural, residential and commercial sectors throughout Africa, SA Solar System has the perfect solar energy solution for your every need.

Solar energy is South Africa's most promising REs. The country receives a lot of solar energy due to its geographical location. Most of South Africa has more than 2500 h of sunshine a year, with typical daily solar radiation ranging between 4.5 and 6.5 kWh/m<sup>2</sup>. Throughout Africa, including the southern part, the sun shines all year round.

For more information see the Energy and Water Ombudman SA's solar feed-in tariffs factsheet. Note: if solar panels were installed before 30 September 2011, you will receive a 44c per kWh feed-in tariff. Check with SA Power Networks before making modifications as changes can affect eligibility for this tariff.
