

Solar panels prices

Since 2010, residential solar panel prices have fallen by roughly 50% while US solar deployment has grown by over 2,000%. The slight rise in residential solar pricing from 2020-2023 is largely attributed to supply chain tangles from the pandemic.

Learn how to estimate the cost of solar panels for your home and how to maximize your savings with SunPower's high-quality and efficient solar system. Compare the price per watt, financing options, tax credits and incentives, and solar panel suitability.

The average cost of a 10.8 kW solar panel installation on EnergySage is \$20,948 after federal tax credits. You'll probably save anywhere from \$28,000-\$120,000 over 25 years by going solar. Solar panels are just 12% of the total cost of a solar panel installation.
