We installed the solar light near the side of our house, facing our gate, and discovered that it provided an impressive 10 feet x 10 feet of lighted area. At 1000 lumens (the highest on our list), we found that the light's maximum range was roughly 25 feet, which is rather good for a solar-powered light. Setting up the lights was also a breeze.

Tent lights have gone beyond simple portable lanterns. There are now lots of variations, from LED tent lights, to string lights for tents. String lights add a sense of character, and a different ambience to an otherwise ordinary tent. Most are solar powered or use a couple of batteries, making them low wattage and more economical.

Solar lights are powered by internal rechargeable batteries, charged through the day by a solar panel. The brighter the day, the more power is stored by the battery and the longer the light will shine. ...
