

Solar power chargers for camping

Which solar charger is best for camping?

Whether you go with a convenient and collapsible solar charger like our top pick, the MPOWERD Luci Inflatable Solar Lantern: Lux for a backpacking trip, or something a bit bigger like the Goal Zero Nomad 50 for car camping and RV trips, know that you're about to make your camping experience a bit more convenient.

Do you need a camping solar charger?

Whether you want to keep your phone powered in case of emergencies or just charge your GPS for navigation, having a camping solar charger is one way to make your camping experience more enjoyable. Thanks to solar energy, you can power basic electronic devices without needing to connect to an outlet.

How much does a camping solar charger weigh?

This relatively lightweight camping solar charger weighs 13.76 ounces, and comes with an integrated 2,200 mAh battery so you can continue to charge your devices even when the sun is no longer shining.

What are portable solar panels & solar battery chargers?

Portable solar panels and solar battery chargers are easy-to-use devices that provide backup power to anyone who happens to be away from a working power outlet, including hikers, car campers, and even people looking to keep their devices running during a power outage at home.

What is the best backpacking solar charger?

The Goal Zero Nomad used to be considered the best backpacking solar chargers. Now there are many other better options when it comes to weight. When you look at the amount of watts per ounce, the Goal Zero chargers are actually really heavy. The 5W charger is very slow.

What are the best solar panels for camping?

The Hiluckey HIS025 25000mAh Power Bank is a 25000 mAh battery bank with a set of 4 small solar panels that unfold. In our lineup of the best solar panels for camping, we look at larger panels. The Jackery SolarSaga 100 continues to be both the best overall and one of the best value panels we've tested.
