Chris McCartney. Finally decided to turn our covered deck into a sunroom. We couldn't be happier and our usage of the space has gone from occasionally using the covered deck when it was the perfect temperature and not too windy, and the bugs weren't too bad, to now being the most used room in our house.

The glazing panels are made of impact-resistant polycarbonate and are available in three colors; clear, translucent white, and transparent grey. An easy install for any general contractor, SUNSCAPE panels are 2 feet wide and are available in 8, 10, 12, & 16 foot lengths and can be trimmed to fit an existing outdoor roof structure.

Solarium panels

Replacing your sunroom panels can refresh your sunroom. All you need to do is remove your old panels first. You'll need a pry bar, a flathead screwdriver, and a drill to do this. Next, you need to measure and cut your new panels. You'll need to see how large the panels for your old ones are and cut your new ones to that size. Once you ...

Solid plexiglass side panels are 100% UV protected and high-impact resistant with the crystal-clear clarity of glass.
