

Telergon photovoltaic switch

It integrates a 6P Telergon switch-disconnector with common outputs up to 2500 A, Pronutec vertical fuse switches TRIVER+ 800 and NH gG/gS fuses and allows, compared to solutions based on ACBs & MCCBs: Reducing the cost up to 50%. Minimal power losses. Facilitating the maintenance. Solutions for PV inverters 800 V AC

Switch-disconnectors with fuses to protect against overloads and short circuits. Fuse switches provide protection against overloads and short circuits, and allow the circuit to be automatically disconnected in the event of a fault. This requires a switch-disconnector capable of protecting at a voltage of 690V, and withstand the maximum current of the auxiliary transformer.

Telergon, as a global reference manufacturer of switch solutions for AC and DC solutions, clearly integrates into its growth and investment strategy, key leadership in the development of technologies in key sectors of the global economy such as, photovoltaic and self-consumption energy, technologies and solutions for energy storage and electric ...

New Range of DC Switch-Disconnectors for Photovoltaics. Check out our new F1 Series of DC switch-disconnectors, designed for photovoltaic installations and solar panel systems. Available from 32A to 1200Vdc. New S3 Series: AC Compact Switch-Disconnectors ... At Telergon, as specialists in photovoltaics, we offer this sector the most efficient ...

High performance switch-disconnector The photovoltaic market has experienced a constant growth in the past years, and the forecasts suggest that ... This is what we understand in Telergon, and that is why we have developed a new high performance switch-disconnector capable of reaching 500 A - 1500 Vdc (750 Vdc per pole): the new S7.

In November 1953, Telergon was founded as a small workshop manufacturing cam switches and special diagrams. Today, 70 years later, we have become a leading manufacturer and specialist in low voltage solutions, with a consolidated position, a product range of more than 5,500 references and a presence in more than 100 countries.

Check out our range of motorised units for switch disconnectors and changeovers ... a Telergon value, manufacturer's guarantee ... High-performance solutions for photovoltaic inverters 800Vac March 2, 2022 3:54 pm. Green Energy, Products La energí;a fotovoltaica sigue creciendo a nivel mundial, habiendo alcanzado má;ximos históricos en 2020 ...

Isolators & Switches Load Break Switches Switch Disconnectors Changeover Switches Bypass Switches Transfer Switches. ... TELERGON PV DC ISOLATOR 32A 1000V DC 4P DIN MOUNT ZFV32AS Product

Telergon photovoltaic switch

Code: ZFV32AS. Technical Specifications. Brand : TELERGON: Ambient Temperature Range (°C) -40 to +65 ...

New range of DC modular switch-disconnectors with a wide variety of applications specifically designed for giving greater protection to photovoltaic installations and green energy projects, meeting precisely the needs and specifications of PV ...

TELERGON S6N0315SUJ0P82 DC ISOLATOR 315A 1500V DC/LEG Product Code: S6N0315SUJ0P82. The Photovoltaic switch is designed for DC Current back to back operation. It has a maximum current rating of 315A and can handle up to 1500VDC per leg. The switch is mounted on the front base or panel using screws. It features tag terminal connections and can ...

Telergon | 2,212 followers on LinkedIn. The switch specialist | Specialists in designing and manufacturing of low voltage switchgear, including switches and electrical protection solutions. Telergon, thanks to more than 70 years of experience, offers a wide range of products and customized solutions for different applications: power ...

The M3 Series from Telergon is a new fully modular range of fuse switch-disconnectors. Available up to 250 A and in 2P, 3P, 3P+N versions, along with the addition of a detachable neutral version. Compatible with a wide range of accessories (handles, auxiliary contacts, terminal shrouds).

Read our blog article to find out how to choose a DC load break switch for your photovoltaic installations. The Socomec Range: A Benchmark for Safety and Performance 1. SIRCO MC PV Disconnect Switches: 25 to 40 A, up to 1000 VDC. Our SIRCO MC PV disconnect switches are perfect for ensuring the safe disconnection of photovoltaic circuits.

It includes a combination of strings of the photovoltaic panels and a rapid shutdown switch. Suitable up to 5 circuits/strings; ... The Firefighter Safety Switch is the perfect solution to protect rooftop solar installation in case of emergency or fire. ... Telergon, and Merytronic, among others). I have read, understood and accepted the ...

S3 series of compact switch-disconnectors. A range of products specifically designed to meet the needs of industrial applications and adapt perfectly to their requirements.. Switch-disconnectors with modular and compact design The new S3 series of compact switch disconnectors, designed under a modular concept, is composed of 3 sizes cluding a range from 16A to 125A and are ...

S7, the leading switch for photovoltaic sector. The S7 Series of Telergon is a new 2P high performance switch-disconnector capable of reaching 500 A - 1500 Vdc (750 Vdc per pole). Based on the innovative MAGIC patented technology, S7 is the result of years of research of our R& D team and the expertise provided by our successful experience ...

Telergon photovoltaic switch

A: The NHP NL432PV is a 32A, 1500V enclosed DC isolating switch. Q: Is this switch compliant with Australian and New Zealand standards? A: Yes, the switch is fully compliant with AS60947.3:2018, making it suitable for use throughout Australia and New Zealand. Q: How does the switch protect against moisture and dust?

Fault-make load-break switch operation, ideal for DC systems. DIN profile complete with direct mounted padlockable handle. Terminals rated to IP20 Oxidation proof contacts with up to 16mm² cable capacity. Application: PV array isolators. Certification: EN 60947.3, UL 508, File E332938. Ratings Mechanical Endurance Cable Size mm

Mac Controls Authorized Distributors for Industrial Electrical & Electronic Products, Mersen Surge Protection Devices, High Rupturing Capacity (HRC) Fuse, Semiconductor Protection Fuse, Photovoltaic (PV) Solar Fuses, Telergon Rotary Cam Switches & Photovoltaic (PV) Solar Disconnect Switches, Weidmueller Industrial Automation & Device Connectivity Products, ...

High performance load break switch disconnectors for 800V ac photovoltaic applications. 3P and 6P ranges designed for string inverter or decentralized installations. Motorizable option, on request. Codes. Amp. ... Telergon. HOME; COMPANY; PRODUCTS. AC Switch-Disconnectors. AC Compact Switch-Disconnectors. S3 | Switch | 16A - 125A;

Aimed at photovoltaic installers and panel builders in PV systems and control panels, and designed to switch up to 1500VDC, the Telergon S6000N DC switch disconnecter is available with different terminal configurations to suit ...

DC Switch Disconnecter is used in photovoltaic applications where voltages go upto 1000V DC. Telergon PV switches are designed and manufactured to withstand 1000V DC. Gorlan. Gorlan companies join efforts to move forward with the same philosophy, sharing values to engage in a common course of action. Contact ...

New range of compact DC multistring switch disconnectors with a wide variety of products specifically designed to offer greater protection to photovoltaic installations and green energy systems, adapting to the needs and specifications of solar panel systems. They are used in photovoltaic applications to manually disconnect solar panels in case of maintenance, repair or ...
