Tudor Heritage Black Bay 79500-0004 for sale! ... The solid case back protects the heart of this timepiece, and namely, the Tudor calibre 2824 automatic movement with a 38-hour power reserve with a 36.00mm case size: 19.00mm bandwidth, and fold over clasp. Other functions: hour, minute, second. Casual watch style.

Which is Tudor's fancy name for the Sellita SW200-1. An outsourced movement that offers decent, reliable performance. The power reserve of approximately 38 hours is a little lacking. But comparable at this price point. Tudor used to use the ETA 2824-2 but for whatever reason has moved on from that movement. The smile dial though, remains.

This new Tudor Heritage Black Bay 36mm isn't just a reduction of the previous 41mm editions, which you know now in burgundy, blue and black (and which will be updated with a new in-house movement - we'll get back on this point in a coming in-depth article). In fact, if the overall style and design are shared between the 36mm and 41mm editions, all the parts, all ...

The new Tudor Heritage Black Bay 36 is powered by the automatic-winding calibre 2824 (modified ETA). The 2824 is a fine movement that can and will provide many years of accurate and reliable time keeping. Introduced in 1961, the 2824 has been regularly revamped through all these years and beats at 28,800vph.

Tudor 79500-0010 description. Introduced at BaselWorld 2016, the Heritage Black Bay 36 pairs the original Black Bay style to an Explorer-like case - sans revolving bezel.
