Mildly related - I have been told for a very long time that Queenbreaker (Fallen wire rifle) is bad, and it actually fucking SLAPS. I've been using it a lot in Gambit and it actually kills people very efficiently, does decent enough boss damage + add clear, blinds on-hit, procs Stylish Executioner because of the blind.

MPMC Hybrid Power Station GSB&#174; Series is a reliable resilient / prime energy solution mainly developed for residential power. To live green while ensuring stable off-grid power source, GSB&#174; Series integrates diesel generator set, solar power, battery storage and hybrid solar inverter in one secure unit. It helps customers realizing solar self-consumption, rate arbitrage and more ...

Legions Imperialis - Solar Auxilia. Credit: Pendulin. Auxilia Ogryn Charonite Section. The best assault infantry in the game so far, these big boys CAF +3 and Furious Charge, which adds another +1 to their CAF in a turn where they Charge at least 1?. Add to this the Rend trait on their weapons, and they're rolling 3d6 with an effective CAF +5 in a turn where they ...

These immense wolves, believed to be offspring of Fenrir, are associated with solar eclipses and cosmic events. The gender association between Sk&#246;ll and Hati unveils intriguing symbolism within their pursuit. Sk&#246;ll, relentlessly chasing the ...

I think I'm right in saying that the Therion Cohort were never identified as Solar Auxilia pattern and may have been Imperial Army (Imperial Militia List in-game). But it's ambiguous so you can build them as whatever Edit: I think a typical regiment of the Imperial Army had about 20-25% Auxilia and the rest as Imperial Militia. So in a ...
