The world's second-largest economy has been the largest market for electric vehicles and plug-in hybrids since 2015, said Xin Guobin, vice-minister of industry and information technology, at a news conference last week. He said there were 11.08 million such vehicles on the country's roads by the end of May, up from 2 million in 2012.

Energy storage economy research and sensitivity analysis applied to photovoltaic primary frequency modulation scenario ... Wei Zhao, Qian Zhang, Ronghua Du, Hongyan Huo, Xiaogang Xin, Guobin Zhang, Ruijun Guo, Jianhua Yin, Haicun Yu, Rongli Li, Chengguo Qin and Qiuping Li. Inner Mongolia Power (Group) Co., Ltd., Inner Mongolia Power ...

Cailian, September 4 (Xinhua) -- today, at the opening meeting of the 17th China Automotive Industry Development (TEDA) International Forum, Xin Guobin, Vice Minister of industry and information

technology, said that this year is the first year of the 14th five year plan, and it is of great significance to do a good job in the follow-up development of the automotive industry. ...

Vice Minister of Industry and Information Technology, Xin Guobin, stated at a press conference today that currently, major automobile producing countries around the world have increased policy support, and multinational automobile companies have also increased research and development investment, injecting strong impetus into the development of the ...

During the Advisory Committee Meeting for the New Energy Vehicle Industry Development Plan (2021-2035), Mr. Xin Guobin, Deputy Director-General (DDG) of Ministry of Industry and Information Technology (MIIT) pointed out that China's NEV industry is currently in a critical period, superimposed by the impact of the COVID-19 epidemic and global ...

The C₂H₆ synthesis needs to consume more protons apparently than C₂H₄ generation, therefore, only regulating the composition of catalysts is inadequate. Here, we propose a strategy to modulate the proton corridor microenvironment in the catalyst system to achieve highly selective conversion of C₂H₆ and reveal the mechanism of the selective ...

Xin Guobin, vice-minister of industry and information technology, said China will promote the research and development of cutting-edge technologies to create an innovation collaboration circle globally. ... R& D institutions, to jointly promote new technological breakthroughs and create a global source of innovation," Xin said.

Xin Guobin, vice minister of industry and information technology, said: through the functions of information collection and management, the source of the power battery can be traced, the direction of the battery can be traced, the node can be controlled, and the responsibility can be investigated. ... NET ZERO MEA - Solar & Energy Storage. Apr ...
